ORGANIZATION FOR RESEARCH AND DEVELOPMENT AT OPC AND CIA LEVELS 25X1

29 Mar 1951, SECRET 25X1

Memorandum to Deputy Director Administration, CIA (now Chief, Administration and Logistics) thru ADPC, again reviews the organization, functions and staffing of OPC R&D, finds R&D understaffed and unable to meet its responsibilities, and concludes R&D should be positioned at the CIA level with a small group remaining in OPC to interpret capabilities to operators and formulate requirement for R&D. Recommends ad hoc committee of OPC,OSO, Commo and CIA reps to explore problem and develop specific recommendations. 25X1

Comment: since DD/A seems to have been recipient of much of this material, a check of RID for old DD/A files may be productive.
